

5P Capital announcing Prof. Dr.-Ing. MBA Achim Kampker as Venture Partner to VC Fund

The German/Dutch cross-border Venture Team of 5P Capital will be supported by Achim Kampker as a Venture Partner going forward.

Achim Kampker is Co-Founder and former CEO of Streetscooter GmbH and has recently returned to RWTH Aachen leading the Institute Production Engineering of E-Mobility Components (PEM). Achim Kampker is one of the most successful entrepreneurs in the area of E-Mobility, with his experience and his network, he will be a crucial contributor to the success of 5P Capital. Achim confirms “The current pipeline of attractive mobility projects in the German / Dutch ecosystem can easily fill a €50million fund with promising investment opportunities”.

5P Capital Key investments apart from the introduction of innovative vehicle concepts in private transport and logistics will revolve around the production of batteries and fuel cells, as well their maintenance and refurbishment. 5P Capital is still in fundraising to close the €50million, however will be announcing first investments very soon.
